

BEST AVAILABLE COPYAttorney Docket No. 60246-343
RD.343**REMARKS**

In the Non-Final Office Action mailed on November 17, 2004, the Examiner reviewed claims 1-18. The Examiner rejected these claims based on a statutory double patenting rejection, indicating that these claims claimed the same invention as claims 1-18 of U.S. Patent No. 6,755,042. Applicant disagrees with the basis for this rejection and believes the claims to be allowable over this rejection.

Specifically, each of the claims of U.S. Patent No. 6,755,042 requires, "an open viewing area." However, the present application has no "open" limitation. Accordingly, the subject matter claimed by the present application is broader and therefore different from that claimed by U.S. Patent No. 6,755,042. For this reason, the statutory double patenting rejection is improper. Claims 1-18 are in condition for allowance.

Respectfully submitted,
